Game features

Hit 1 Egg symbol on the 1st reel and 1 Catapult symbol on 5 reel to trigger the Colorful Re-Spins Feature.

During the Colorful Re-spins Feature, there is a gnome with an egg under the reels, changing its position every re-spin. When the Bucket of Paint symbol drop on the reels, it spills the paint below itself. If there is no gnome with an egg under dropped the Bucket of Paint symbol, nothing happens, but if there is a gnome with an egg, then the Colorful Re-spins Feature end and a reward is given for all Bucket of Paint symbols, and the egg goes to the collection.

After each Colorful Re-spins Feature, the colored egg is collected in a basket and increases the reward in the building.
Once 16 colored eggs are collected, the entire reward is multiplied by a random multiplier, and the total value is awarded.
